2000 Gulfstream IVSP

Serial Number: 1433 Registration: N33GA

INTERIOR

The 13 passenger executive interior was designed for functionality and flexibility with three separate seating areas making it ideal for entertaining or conducting business. The forward cabin contains four single seats in a double club configuration with two writing tables. In mid-cabin there is a single three-place divan opposite two club seats with a writing table. The aft cabin features a four-place dining/conference group opposite a storage credenza containing the fax machine, entertainment system and miscellaneous storage. The seats are finished in Taupe and Claret leather and complimented by rust chenille fabrics, textured mocha carpet and beige headliner. The woodwork throughout the cabin is beautiful high gloss African Cherry veneer and accented with Gold plated hardware and inlays.

Other features include MSA sliding window shades, four telephone handsets in the cabin and one cockpit handset, laptop/utility electrical outlet at each seat grouping and Pegasus touch pad electrical switches. The aft galley contains lighted crystal display areas, work surface; sink with hot water, chilled wine and food storage, china and silverware drawers, three serving trays, extra large ice drawer, dual coffer makers, microwave and hot oven.

The state of the art entertainment system includes; Panasonic DVD player, Sony CD player/equalizer and CVR VHS player, Airshow Network 99 in-flight cabin display with a forward 18" and aft 14" LCD monitor. There is a forward crew lavatory and aft passenger lavatory with vanity and closet. Aft enclosed baggage compartment.
